Subject: Freya Recall

Attachments: Warning IPM List.pdf

Hi Dan,

Welcome back. I want to update you with our recall. We have sent and/or hand delivered a recall letter to all vendors we work with and have all product back here in isolation except for one vendor on the Eastside (It Is Lit). They have it isolated and waiting for us to pick up. We are going to use a 3rd party service to retrieve that this week. I will let you know when that is happening and then we can come up with a plan to destroy returned product.

Also I am attaching a letter we are giving to our vendors regarding warnings and pest products we may use.

Talk to you soon,
Matthew Shellenberger,

Freya Farm
